

Thermodyne's 700NDNL counter-top holding unit provides food quality and kitchen efficiency like no other piece of equipment on the market today. Using patented Fluid Shelf® technology each shelf in the cabinet maintains an exact temperature, allowing for extended holding times, without sacrificing appearance or taste. The 700NDNL has twice the capacity of our 300NDNL model and also requires no door. Units are available as pass through or with a solid panel back and include our exclusive removable floating lid system.
